

## Maybe we refuse masks because they are part of a BIGGER AGENDA....

*"During the pandemic, national leaders around the world flexed their authority and imposed airtight rules and restrictions, from the mandatory wearing of face masks to body-temperature checks at the entries to communal spaces like train stations and supermarkets.*

*Even after the pandemic faded, this more authoritarian control and oversight of citizens and their activities stuck and even intensified."*

Rockefeller's Lockstep Scenario - written in  
**2010**

globaluprising.is

If news headlines are your only source of information, you may be surprised to discover that there is little to fear from the virus itself. On the 19<sup>th</sup> March, before we even went into Lockdown, the government downgraded Covid-19 as a HCID (High Consequence Infectious Disease) due to its 'low overall mortality rate'. Multiple studies show a fatality rate of those infected is estimated between 0.02% and 0.2%, similar to seasonal influenza ([www.evidencenotfear.com](http://www.evidencenotfear.com)). The risk to children is less than being struck by lightning and the risk to adults is 25 times less than being hit by a car.

### **The new 'science' contradicts all previous advice**

- Throughout the peak of the pandemic, the World Health Organization told us that healthy people should not wear masks and HM government told us *"The evidence suggests that wearing a face covering does not protect you...evidence of the benefit of using a face covering to protect others is weak."*
- There is NO new research proving that masks work.

### **Political lobbying is leading mask mandates and real science is being censored**

- It has been revealed by health correspondent Deborah Cohen that *"We had been told by various sources that WHO committee reviewing the evidence had not backed masks but they recommended them due to political lobbying."*
- Research is now being censored which shows that masks cause more harm than good. See link below regarding Denis Rancourt's paper 'Masks don't work'.

### **Infringement on liberties and disastrous psychological impact on society**

- Mandating the use of face masks is a major infringement on the civil liberties of the UK public and a clear subversion of Parliamentary democracy, setting a dangerous precedent for the future.
- The psychological effect of not being able to read people's faces and social interactions being restricted will be disastrous, increasing division and loneliness within society. This hasn't been addressed by the media.

### **Not enforceable by the Police.**

- UK police commissioner has publicly announced they cannot and will not enforce mask or social distancing and many stores have issued statements saying they will not enforce mask wearing.

### **You can claim exemption if wearing a mask causes you distress or anxiety**

Many people are exempt for various reasons, such as suffering from respiratory problems, being on the autistic spectrum or having another invisible disability. Government guidance states: "You do not need to wear a face covering if you have a legitimate reason not to. You only need to state that you are exempt, you do not legally have to prove why that is. Reasons include;

- not being able to put on, wear or remove a face covering because of a physical or mental illness or impairment, or disability
- if putting on, wearing or removing a face covering will cause you severe distress
- if you are travelling with or providing assistance to someone who relies on lip reading to communicate"
